

# Project Plan

## 1. Team Details

Name	Roll no
142402001	Adarsh Gunasekhar
142402006	Geddam Gowtham
142402012	Suman Pal

## 2. Database Schema

## 3. Details of preprocessing completed

- Done preprocessing in jupyter notebook using pandas

- Read data from `movies.csv` file,
- data analysis to find and replace null values and also to understand the data
- got data required as per our database schema

#### 4. Tools and libraries to be used

- **Pre-processing:** pandas, re
- **Visualization:** matplotlib, seaborn, plotly
- **Dashboard:** Streamlit

#### 5. Rough Plan for website and dashboard
